

Electric Bicycle

3 selectable pedal assistants

Citybike

Technical Data

Type:	electric bicycle - Citybike
Wheel size:	26"
Frame design:	low step in
Motor:	hub motor 36V 250W
Battery:	high-performance battery Lithium-Ion 36V 10Ah (2,5 kg) * without memory effect
Total weight:	26 kg
Colour:	Aluminium satined and varnish
Construction:	strong aluminium frame
Brakes:	front and rear disk brakes
Lighting:	front and rear
Gears:	7-Gear Shimano
Suspension:	front
Offer includes:	36 V charger
Range:	approx. 60 km
Max. speed :	up to 25 km/h (Motor)
Equipments:	carrier rack, shopping basket, handle bar height adjustable and strong kickstand
Special features:	electric drive is switched off when braking
Legal requirements :	helmet not required No insurance or registration required

**strong carrier rack
brushless hub motor
lock- and removable battery**

**suspension fork
great shopping basket
low step in**

* The electric bike is equipped with state-of-the-art rechargeable lithium ion (Li) batteries.

And that means even more power and no memory effect (memory effect occurs when batteries that are only partially run down, e.g. by 50%, are recharged). Li batteries are also less heat- and cold-sensitive than conventional rechargeable batteries.
