

Battery-Plattform

handle easy foldable

convenient operation

AP 250

Battery-Platform AP 250

Technical Details

dimensions mm	length	width	height
total size	1090	620	1065
platform size area	880	600	
platform height			295
ground clearance			45

drive	lead acid battery
voltage	24 V (2 x 12V) 14Ah
performance	200 W
climbing ability	max. 10° (18 %)
controller	Curtis 70 A

special feature	easy foldable handle parking brake charge indicator
-----------------	---

operating data	
weight	64 kg (incl. battery)
max. payload	250 kg
operating time	ca. 5 Std.
charging time	ca. 6 Std.
working speed	0 – 6 km/h continuous
direction	forward / backward
tyres front	9" x 3,50-4 pneumatic
tyres back	5" rubber
charger	external
