

Battery-Plattform

AP 400 H

Battery-Platform AP 400 H

Technical Details

dimensions mm	length	width	height
total size	1340	620	1100
platform size area	1100	600	
platform height			460 – 1600
ground clearance			45

drive	lead acid battery
voltage	24 V (2 x 12V) 33Ah
performance motor	400 W
performance lifting motor	800 W
climbing ability	max. 15° (27 %)
controller	Curtis 70 A

special feature	scissor lift platforms parking brake charge indicator
-----------------	---

operating data	
weight	220 kg (incl. battery)
max. payload	400 kg
operating time	ca. 6 Std.
charging time	ca. 8 Std.
working speed	0 – 6 km/h continuous
direction	forward / backward
tyres front	10" x 3,50-4 pneumatic
tyres back	6" swivel wheel with brake rubber
charger	external

convenient operation
