

Battery-Plattform

convenient operation

AP 500

Battery-Platform AP 500

Technical Details

dimensions mm	length	width	Höhe
total size	1450	910	1080
platform size area	1180	910	
internal grid dimensions	1150	860	
platform height			325
Grids height			510
Grids height from polattfirm			605
Bodenfreiheit			45

drive	lead acid battery
voltage	24 V (2 x 12V) 33Ah
performance	400 W
climbing ability	max. 15° (27 %)
controller	Curtis 70 A

special feature	side grids to unhook parking brake charge indicator
-----------------	---

operating data	
weight	125 kg (incl. battery)
max. payload	500 kg
operating time	ca. 6 Std.
charging time	ca. 8 Std.
working speed	0 – 6 km/h continuous
direction	forward / backward
tyres front	10" x 3,50-4 pneumatic
tyres back	6" swivel wheel with brake rubber
charger	external
